2. CORE DESCRIPTION

The Children's Administration appropriation provides funding for salaries, communication costs, and office expenses for all Central Office staff. These staff are charged with oversight of state and federal policy, statutory and regulatory compliance. Oversight of programs, contracts, funding, etc. are directed from Children's Division Administration. This appropriation also provides funding for School Based Social Service Workers and provides some of the expense and equipment funding for Children's Division Field Staff.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 90080C	DEPARTMENT: Social Services
BUDGET UNIT NAME: Children's Administration	DIVISION: Children's

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

Section	PS or E&E	Core	% Flex Requested	Flex Requested Amount
	PS	\$4,022,946	25%	\$1,005,737
	E&E	\$2,731,561	25%	\$682,890
Total Request		\$6,754,507		\$1,688,627

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$0	H.B. 11 language allows for up to 25% flexibility between each appropriation.	25% flexibility is being requested for FY 12

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
--	---

Flexibility allows us to explore avenues of streamlining operations to efficiently provide the same or increased services with significantly fewer resources. The flexibility clause would afford the division the opportunity to analyze current operations and to implement new effective and cost efficient methods of providing services.

For example, the Division has incurred increased costs due to postage rate increases. However, the Division has not received increased funding to meet these expenditures. This request allows the Division the flexibility to meet these expenditures until these issues can be addressed through other avenues such as the Smart Lease program and streamlining operations.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Children's Division Administration

Program is found in the following core budget(s): Children's Administration

1. What does this program do?

PROGRAM SYNOPSIS: The Children's Division (CD) is charged with the administration of a variety of child welfare programs. These programs include the following: Foster Care, Adoption/Guardianship Subsidy, Residential Treatment Services, Children's Treatment Services, the Investigation and Treatment of Child Abuse and Neglect, Independent Living, Transitional Living and Child Care.

Children's Division Administration provides funding for salaries and expense and equipment for all CD Central Office staff. Central Office is responsible for the direction and management of all Division programs. Following is a description of units responsible for the management of Children's Division programs.

- Children's Division Director's Office is responsible for Communications, Human Resources, Legislative Affairs and Constituent Services, Emergency Management, Out-of-Home Investigations and the Child Abuse and Neglect Hotline. Focus is placed on proactive internal and external communications to enhance the Division's relationships with staff, customers, partners and the public.
- Planning, Performance Management is responsible for Interdepartmental Placement Management, Residential Licensing, Foster Care Case Management Contract Oversight, Strategic Planning, Systems Development & Support, Quality Assurance and Quality Improvement. Focus is placed on strategic planning and the use of data to maintain and improve the delivery of services and maintenance of the states IV-B Plan with the federal government.
- Practice & Professional Development is responsible for Policy and Program Development, Professional Development and Training, and Field Support to regional and circuit managers. Focus is placed on the delivery of child welfare services and providing support and technical assistance to staff who deliver those services.
- Early Childhood & Prevention is responsible for Child Care Subsidy Administration, Early Childhood Subsidy, Interagency Prevention Initiatives and Partnership Development, and Provider Registration. This unit is primarily funded from Purchase of Child Care. Focus is placed on supporting childcare consumers and providers and on activities that can assist families before children enter the child welfare system due to abuse and neglect.
- Financial Management and Operational Services provides supportive services and operational oversight for all of the programs in the Children's Division and Family Support Division. This unit maintains the Children's Divisions IV-E state plan with the federal government. This unit consists of Contract Management, Budget & Finance, Facilities Management including oversight of Department's leases, and Payment Processing/Meeting & Conference Planning. Focus is placed on internal customer service and effective resource management to improve the Division's efficiency.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State Statute(s) - RSMo. 207.010, 207.020; 42 USC Sections 670 and 5101.

3. Are there federal matching requirements? If yes, please explain.

Children's Division administrative expenditures are reimbursable at the Children's Division time study rate of around 23.8% federal (76.2% state match) or at the IV-E administrative rate of 50% (50% state match) if expenditures are 100% IV-E reimbursable. The time study rate is determined by polling a select number of Children's Division staff to determine the amount of time spent on particular programs. The time spent on each program and the earnings for these programs are used to determine a federal reimbursement rate.

4. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to investigate CA/N and care for children who are abused and neglected. Administrative activities related to these obligations would be considered mandatory.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserve

Reverted: \$28,097

Reserve: \$74,550 Federal

6. What are the sources of the "Other " funds?

Third Party Liability (0120) and Early Childhood Education/Care (0859).

7a. Provide an effectiveness measure.

Administrative functions promote the overall effectiveness of all programs.

7b. Provide an efficiency measure.

Administrative functions promote the overall efficiency of all programs.

7c. Provide the number of clients/individuals served, if applicable.

7d. Provide a customer satisfaction measure, if available.

2. CORE DESCRIPTION

This appropriation provides funding for personal services for Children's Service Workers and support staff to support the Children's Division programs in each of the 45 Judicial Circuits in the State of Missouri. Funding also provides for expense and equipment for all support and direct worker staff the Children's Division has based in each of the 45 Judicial Circuits. Front line staff respond to allegations of child abuse or neglect; provide assistance for families in need of services to keep or return children home safely; secure appropriate out-of-home placements for children placed in the Division's custody; and locate permanent homes when it is in the best interest of children. This core request includes funding for Children's Service Workers at 100% of need based on Council of Accreditation (COA) Standards. Maintaining these standards help to ensure the safety of children and to expedite moving kids from state custody to permanency. As a whole, Missouri's Child Welfare System became accredited through COA effective November 2009.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 90085C	DEPARTMENT: Social Services
BUDGET UNIT NAME: Children's Field Staff and Operations	DIVISION: Children's

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

Section	PS or E&E	Core	% Flex Requested	Flex Requested Amount
	PS	\$72,889,686	25%	\$18,222,422
	E&E	\$6,431,688	25%	\$1,607,922
<i>Total Request</i>		\$79,321,374		\$19,830,344

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$850,000 *	H.B. 11 language allows for up to 25% flexibility between each appropriation.	25% flexibility is being requested for FY 12

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE

Flexibility was used to meet expense and equipment needs and to help offset the increase in postage.

*Includes flexibility used in CD Field Staff & Operations & Child Welfare Accreditation. In FY 2011, the Child Welfare Accreditation Core was transferred to the Children's Field Staff and Operations Core.

CURRENT YEAR EXPLAIN PLANNED USE

Flexibility allows us to explore avenues of streamlining operations to efficiently provide the same or increased services with significantly fewer resources. The flexibility clause would afford the division the opportunity to analyze current operations and to implement new effective and cost efficient methods of providing services.

For example, the Division has incurred increased costs due to postage rate increases. However, the Division has not received increased funding to meet these expenditures. This request allows the Division the flexibility to meet these expenditures until these issues can be addressed through other avenues such as the Smart Lease program and streamlining operations.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Children's Field Staff and Operations

Program is found in the following core budget(s): Children's Field Staff and Operations

1. What does this program do?

PROGRAM SYNOPSIS: Provides for Children's Service Workers and support staff to support the Children's Division (CD) programs in each of the 45 Judicial Circuits in the State of Missouri. Front line staff respond to allegations of child abuse or neglect, provide assistance for families in need of services to keep or return children home safely, secure appropriate out-of-home placements for children placed in the Division's custody, and locate permanent homes when it is in the best interest of children.

The Children's Division must employ direct worker staff, supervisory, administrative, and clerical positions to support the programs that it administers. The division's administrative structure provides that the Division Director will supervise administrative staff in the Regions, and they in turn will manage the division's local county offices which are organized into circuits. Regional staff are responsible for all programs operated by the division in that region. Each Circuit Manager has similar responsibility for that circuit's staff and employs supervisory and clerical staff to facilitate the management of these programs. A typical circuit structure would have a unit or units of children's service workers, a social service supervisor(s), a clerical staff, and a Circuit Manager.

Administrative staff are engaged in activities related to program monitoring and evaluation, personnel management and appraisals, training and automated system support. The supervisors are responsible for quality, and for monitoring of case activities to assure accuracy. They also provide significant on-the-job training to new workers. Supervisory staff are allocated based on a ratio of 1 for each 7 workers. Clerical staff are frequently shared between CD and FSD in the county offices. They manage the direction of clients that come into the office, provide reception and data entry functions and assist with other clerical functions.

Children's Services Workers in the Children's Division investigate child abuse and neglect reports, conduct family assessments, provide permanency planning for children, and ensure that permanency is achieved in an expedited manner. The Children's Service Worker is an advocate for the children and an integral partner with the juvenile court. They must ensure that safety is attained, and the needs of the children and their families are met in a manner that serves the child's best interests. According to Section 210.112RSMo, it was the intent and goal of the General Assembly to have the Children's Division attain accreditation by the Council on Accreditation (COA). On November 13, 2009, COA announced that the Missouri's Children's Division was fully accredited. Statewide efforts are underway in FY11 and beyond to ensure accreditation standards are maintained, per requirement of COA. Attaining and maintaining accreditation demonstrates to consumers and stakeholders that the Children's Division is doing its best to advocate for Missouri's most vulnerable citizens by adhering to nationally recognized standards. Maintaining COA caseload standards helps to ensure child safety and to expedite moving kids from state custody to permanency.

The Children's Division has fundamentally sound policies. However, meeting the expectations of these policies to maximize the probability of attaining favorable child welfare outcomes requires reasonable caseload sizes. By having fewer cases in a given caseload, Children's Service Workers are better equipped to consistently deliver quality services to Missouri's children and families. Following is a brief discussion of the major responsibilities of the Children's Service Worker.

Investigation of Child Abuse and Neglect: A Children's Service Worker initiates an investigation or family assessment into allegations of child abuse or neglect within 24 hours of report to the Child Abuse & Neglect Hotline. If the report indicates behavior that may constitute a criminal violation, the report is screened as an investigation, and law enforcement is contacted to co-investigate. An investigation determination is made as to whether abuse/neglect has occurred and if so, the name of the perpetrator is placed in the Central Registry. Services are provided to the family, as appropriate. Reports of child abuse/neglect that do not appear to be of a criminal nature are responded to through a family assessment. The primary purpose of the comprehensive family assessment is to assess the child's safety and the family's need for services. The agency seeks to form a collaborative relationship with the family and their community to build on existing strengths. Through this process the focus is on long-term success for the family, rather than on an individual incident.

Family-Centered Services: If the investigation or family assessment determines that the child is in danger, the worker collaborates with law enforcement and/or the Juvenile Court to take immediate steps to protect the child and begins working with the family to prevent any further abuse or neglect. Treatment services are put into place to help prevent the recurrence of abuse or neglect and to help the family regain custody if removal of the child(ren) was necessary.

Alternative Care: In many instances the protection of the child requires the removal of the child from the home and placement in an alternate living arrangement. The worker makes arrangements for this placement, monitors the placement, and when appropriate makes plans for the subsequent return of the child to their natural home.

Intensive In-Home Services: Intact families who are referred for intervention receive intense in-home services for a period of 6 weeks. These services are aimed at identifying and overcoming problematic situations within the home. Successful intervention results in allowing the family to stay together safely and prevents out-of-home placement of the children.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State Statute(s) - RSMo. 207.010, 207.020, 208.400; 42 USC Sections 670 and 5101.

3. Are there federal matching requirements? If yes, please explain.

Children's Division line staff and operations expenditures are reimbursable at the Children's Division time study rate of around 23.8% federal (76.2% state match) or at the IV-E administrative rate of 50% (50% state match) if expenditures are 100% IV-E reimbursable. The time study rate is determined by polling a select number of Children's Division staff to determine the amount of time spent on particular programs. The time spent on each program and the earnings for these programs are used to determine a federal reimbursement rate.

4. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who are abused and neglected. Line staff and operations activities related to these obligations would be considered mandatory.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserve

Reverted: \$1,091,550

Reserve: \$536,566 Federal

Note: In FY2011 the Child Welfare Accreditation Core was transferred to the Children's Field Staff and Operations Core. Expenditure amounts for FY 2008 thru FY 2010 include Child Welfare Accreditation Core Expenditures.

6. What are the sources of the "Other " funds?

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Children's Staff Training

Program is found in the following core budget(s): Children's Staff Training

1. What does this program do?

PROGRAM SYNOPSIS: The Children's Division Professional Development and Training program provides Children's staff training and education for all levels of Children's Division staff and community representatives as appropriate. Training of staff on agency policy and practice that uses federal and state statute as a framework is essential to ensure that children and families receive appropriate, adequate services to meet their individual needs.

Following is a summary of training/education provided for staff and foster and adoptive parents.

Child Welfare Practice Pre-Service Training-Skill Building for Children's Service Workers

This comprehensive, competency based training program is divided into three equal partnerships: the immediate supervisor of the trainee, the classroom trainer and the new worker. The supervisor coaches the new worker through a series of On The Job Training (OJT) activities. The classroom trainer develops work skills through a wide range of adult learning activities and the trainee is an active participant in completing learning assignments.

OJT is intended to prepare and reinforce classroom instruction with the supervisor working individually with new staff. Family cases are assigned to the new employee as concepts and skills are presented in the classroom and OJT. Working with families incrementally allows the worker to master the procedure without the presence of many deadlines and crises. The one-on-one coaching from the supervisors creates the optimum learning and practice environment.

Child Welfare Practice Basic Orientation Training consists of approximately 20 days of classroom training. The "on-the-job" training is conducted at the workers base circuit. Each basic session consists of approximately 20 or more persons, which includes agency field staff as well as persons contracted with CD to provide services to families. Following Basic Orientation, new staff must complete core in-service courses which can vary depending on their job duties. The three core In-service courses are: Investigation/Assessment, Family Centered Services (FCS), and Family-Centered Out-of-Home Care (FCOOHC). Core In-Service Modules for Children Services Workers and Supervisors range in length from 14-36 hours, depending on the module of job specialization. The In-Service must also be completed by the employee within their first year. In addition to these in-service courses, the agency also provides in-service training on such topics as Legal Aspects, Older Youth, Domestic Violence, Ethics, and Cultural Competency as part of the ongoing professional development of staff.

STARS Pre-Service Training for Foster and Adoptive Parent Applicants - Train-the-Trainer

The Professional Development and Training Unit Trainers provide a Train-the-Trainer session to help the children's service worker and teaching foster/adoptive parents become informed of the STARS (Specialized Training, Assessment and Resource Support/Skills) program so they are able to facilitate the on-going pre-service training classes for potential foster/adoptive parents. The curriculum was developed by the Child Welfare League of America in cooperation with Illinois, Missouri and about 30 other states and is available worldwide. The curriculum is competency-based for foster and adoptive parents.

Spaulding: Making the Commitment to Adoption Curriculum for Adoptive Parent Applicants-Train-the-Trainer

The Professional Development and Training Unit Trainers provide a Spaulding Train-the-Trainer course for those who have completed the STARS Train-the-Trainer Courses, and wish to train Spaulding. Spaulding is a course for those parents who have successfully completed the 27 hours pre-service curriculum and wish to adopt. It was developed by the Spaulding National Center for Special Needs Adoption to be a part of the preparation process of resource families. This training assists those considering adoption in looking at those differences and the unique challenges that adoptive families of children with special needs face, and explore ways to anticipate and manage these challenges. The Train-the-Trainer courses address all of this in a three day program.

Forming a family through adoption is different than forming one biologically or being a foster family. It is not necessarily better or worse, easier or more difficult--but different, regardless of the age or special needs of the child(ren) adopted. This training assists those considering adoption to look at those differences and the unique challenges that adoptive families of children with special needs face and explores ways of anticipating and managing these challenges.

Particular attention is given to the impact of separation, loss and grief and the importance of attachment in the adoption experience. Those involved in the training will explore how children enter the child welfare system; the impact of abuse, neglect, abandonment and life in the system on children's behavior; and just who these children are who need adoptive families.

STARS In Service Training for Foster Parents - Train-the-Trainer

The STARS In-Service curriculum for foster parents was written by the Child Welfare League of America, as part of the same contract and consortium noted under the STARS Pre Service Train-the-Trainer item.

The In-Service course consists of twelve modules, each containing one to five sessions, each three hours in length, for a total of 99 hours of training. The content addresses the advancement of the competency acquisition introduced in the STARS/CWLA pre-service curriculum.

Staff in local counties work with foster parents to determine which competencies the foster parent needs to develop further, and the local teaching/training teams offer the courses.

Training and Development staff conduct Train-the-Trainer courses for teams of local teaching foster parents and workers from those counties where the Family Centered Out of Home Care (FCOOHC) program and the STARS/CWLA curriculum have been trained and implemented. The Train-the-Trainer session consists of two, one-week sessions. Approximately 25 persons can attend per session. These teams are some of the same persons trained in the pre-service curriculum.

Child Abuse/Neglect Investigation - 20 Hours of Training

210.180 RSMo. requires that "each employee of the division who is responsible for the investigation or family assessment of reports of suspected child abuse or neglect shall receive...not less than 20 hours of in-service training each year on the subject of the identification and treatment of child abuse and neglect." This statute was passed as part of SB 470 in 1986 and amended with SB 595 in 1994.

Training delivered, in order to comply with RSMo. 210.180, includes the philosophy, knowledge and skills used throughout the state which are reflective of CD policy, Missouri statutes, and child welfare practice and philosophy.

Training For Newly Promoted Supervisors

New children service and clerical supervisors are required to attend classroom training within six months of promotion. The 40 hour BOSS classroom training is provided through the Human Resource Center. In addition to the initial BOSS training, CD front line supervisors are required to attend the 39 hours Children's Division Clinical Supervisor Training which is also provided to supervisors in the first six months of employment.

Part-Time Master's of Social Work Education Programs

There are education programs designed to help Children's Division staff and child welfare professionals attain the Master's of Social Work degree while continuing to be employed full-time by the Children's Division. Title IV-E funding is available to help cover the costs of these programs. Universities and colleges partnering with the Children's Division include the University of Missouri (UMC) campuses in Columbia, Kansas City and St. Louis; and Missouri State University. UMC also has distance learning sites in Southeast Missouri at Southeast Missouri State University (SEMO), Northwest Missouri at Missouri Western and North Central at Truman State University. The Part-Time Master's program pays staff's tuition, books, and fees. In return for the assistance, the employee/student must agree to a fixed time of employment in the county of preference. The payback time for this program is 4 years.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 210.543, 210.112 (4), 210.180; 42 USC Sections 670 and 5101.

3. Are there federal matching requirements? If yes, please explain.

Child Welfare training expenditures may receive a 75% IV-E federal match for every dollar spent, making the state match obligation 25%. The state match related to the education programs is paid/certified by the participating universities and colleges. Administrative expenditures related to training may receive a 50% IV-E federal match.

4. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who are abused and neglected. Training related to these obligations would be considered mandatory.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves

Reverted: \$72,368

Reserves: \$121,280 Federal

6. What are the sources of the "Other " funds?

NOTES:

FY2008--Federal fund agency reserve of \$770,000 for authority in excess of cash for Extensive Day Treatment.

\$350,000 of the funding for Home Visitation was transferred to a new section called Child Welfare Prevention. In addition, CD received \$300,000 of new funding for an Intensive In-Home Services increase.

FY2009--Previously, funding for Crisis Nursery and Teen Crisis Care were in a separate line item within the CTS budget section. In FY2009 the funding was transferred to individual budget sections. CD received \$234,000 of new funding for Intensive In-Home Services. Federal fund reserve of \$761,000 due to empty authority.

FY2010--There was a core reduction of \$500,000 to align Extensive Day Treatment budget authority with planned spending.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Children's Treatment Services

Program is found in the following core budget(s): Children's Treatment Services

1. What does this program do?

PROGRAM SYNOPSIS: This program provides services for families and children to prevent child abuse and neglect (CA/N) and to treat the negative consequences of the occurrence of CA/N. These services are administered by third party providers and include counseling and therapy; parent aide and education services; and intensive in-home services (family preservation). Services are provided in order to keep children from entering alternative care as well as return children safely to their homes.

Children's Treatment Services (CTS) include traditional services, crisis intervention, emergency medical examinations to allegations of CA/N, transportation, home visitation, juvenile court diversion and intensive in-home services. Each area of service is discussed below.

"Traditional" CTS Services

In families with children identified as abused or neglected, or at risk of abuse or neglect, services are provided to prevent injury to the children and to reduce the risk of abuse/neglect. Because of the multitude of problems experienced by these families, a variety of services are required.

The services provided through CTS contracts are intended to prevent further incidents of child abuse and neglect by strengthening families through services delivered to the family to divert children from foster care and to assist families in having their children returned to their home.

CTS Services include:

- Family Therapy - Intensive family therapy treatment services to families at the contractor's facility or in the home of the family.
- Individual Therapy - Individual therapy in the form of guidance and instruction.
- Group Therapy - Guidance and instruction provided through therapeutic interaction between the contractor and a group consisting of two or more individuals.
- Crisis Intervention Services - Services to an individual in order to alleviate or diffuse a situation of immediate crisis.
- Mental Health Assessment - Assessment services to identify the treatment needs of the individual or family for the purpose of assisting the Division to develop and implement a treatment plan to correct or minimize those needs.
- Psychological Testing - Testing services which shall include: 1) the administration and interpretation of an individual battery of tests; 2) the submission of a written report stating the result of the tests; and 3) a recommendation for treatment.
- Day Treatment - Therapeutic day treatment program for emotionally disturbed, developmentally disadvantaged, and abused or neglected children also providing therapy for members of the child's family.
- Family Assistance - Placement of an aide to assist a child, or his/her family, with normal daily living activities, assessing community resources, and providing one-on-one temporary supervision. This service is for individuals with mental or other developmental disabilities.
- Respite Care - The provision of 24 hour per day placement services for children who are living outside their own homes and who need short term placement.
- Parent Aide - Placement of a trained parent aide in the home of a family as part of the family/client's case treatment plan. The aide assists the parent(s) in developing parenting and homemaking skills.
- Tutoring - Provisions of services to children enrolled in and attending school for educational enhancement
- Mentoring - One-on-one services provided directly to a child to meet identified goals in the areas of problem solving, peer pressure, and socially acceptable behavior.

- Service Delivery Coordination - Identifying and accessing community resources on behalf of a specific child or family
- Resource Coordination - The provision of activities related to the coordination of the delivery of services, or the development, identification, and acquisition of resources for clients in need of a variety of services.
- Parent Education Program - The contractor provides an instructional program in the form of appropriate parenting techniques for a group consisting of five or more individuals.
- Parent Training Program - Provisions of an instructional program that is competency based to demonstrate appropriate parenting techniques

Crisis Intervention Funds

These funds allow the Division to address the critical financial and resource needs of families served by the Division. The funds are utilized for families being investigated for child abuse/neglect who are receiving Child Welfare Services. The service is accessed only when other resources to alleviate the crisis have been fully explored. Eligible services include, home repair, child safety items, health related purchases, employment/school supplies, household items, rent/mortgage arrears, and transportation.

Emergency Medical Exams related to CA/N

The Division pays for medical examinations related to child abuse investigations when other payment resources, e.g., Medicaid, private insurance, direct payment by parents, etc., are not available.

Transportation

Purchase of transportation, by miles traveled, to transport clients to and from services, e.g. to medical appointments, counseling sessions, etc.

Services above are available on a statewide basis. MO HealthNet is used in lieu of CTS, when available.

Juvenile Court Diversion

This service allows the Juvenile Court to provide services to youth who come to their attention without placing the youth in the custody of the Children's Division. The services are aimed at diverting the children from CD custody.

Intensive In-Home Services

Intensive In-Home Services (IIS), formerly known as Family Preservation Services (FPS), is a short-term, intensive, home-based crisis intervention program that offers families in crisis the possibility of remaining safely together and averting the out-of-home placement of children. Families that have a child or children at imminent risk of removal from the home due to neglect, abuse, family violence, mental illness, emotional disturbance, juvenile status offense, and juvenile delinquency are offered IIS. Services are provided in the family's home or other natural setting. Families are assigned one principal specialist who is responsible for spending up to 20 hours per week in face-to-face, direct contact with the family. The IIS program combines skill-based intervention with maximum flexibility so that services are available to families according to their unique needs. Trained specialists teach families problem solving and other life skills. Also, the IIS specialists provide information to families regarding other resources. In all, IIS focuses on assisting in crisis management and restoring the family to an acceptable level of functioning. In Missouri, the intervention techniques are created using a behavioral/cognitive model, specifically the HOMEBUILDER'S model.

IIS is based on the belief that families can, through intensive intervention, learn to nurture their children, improve their functioning, and gain support within their community to enable the family to remain safely together. Enmeshed in this belief is the ultimate goal of the program, the safety of the child. At no time should the Missouri (IIS) program be viewed as keeping families together at all cost.

Safety of all family members is a concern of IIS; however, safety of the child is the number one consideration. A goal of the program is to modify the home environment and behavior of family members so that the children, at risk of removal, can remain safely in the household. Throughout the IIS intervention, safety of the child is continually assessed. A recommendation for immediate removal is made if at any point it is determined that the child's safety is threatened.

Intensive In-Home Services in Missouri include many phases of service delivery. Key components are: Pre-referral, referral, screening, assessment, treatment process, termination, and follow-up or aftercare. Also, an integral part of the IIS program delivery is the availability of a crisis intervention fund. The crisis intervention fund is maintained to enable specialists to assist families throughout the course of the intervention. Such assistance involves paying reasonable expenses for the purpose of alleviating crises that might result in the placement of children. Examples of such immediate expenses include utility deposits, transportation, food, clothing, hygiene, and home repair expenses.

Essential Program Elements Include:

- One or more children in the family must be at imminent risk of out-of-home placement;
- No waiting list for services;
- Specialists' availability within 24 hours of referral;
- Home-based service orientation;
- Focus on the entire family as the service recipient;
- Intensive intervention, up to 20 hours per family (or more, if needed), per week;
- Specialists' availability to family 24-hours per day, seven days per week;
- Specialists' delivery of both concrete and counseling services;
- Regular staffing conducted between the specialist, supervisor, referral agent, follow-up provider and other pertinent individuals;
- Crisis intervention fund available for family emergency needs and treatment enhancement;
- Time limited (six week maximum) service period;
- Specialists' caseloads limited to two families;
- Coordination of IIS follow-up services; and
- Specialists possess specific educational and training requirements.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 207.010, 207.020, 210.001, 211.180

3. Are there federal matching requirements? If yes, please explain.

Most Children's Treatment Services expenditures do not earn federal dollars. Some expenditures are used as state maintenance of effort (MOE) to earn the federal IV-B 2 family preservation, and support other block grants.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves
 Reverted: \$954,372

6. What are the sources of the "Other " funds?

N/A.

7a. Provide an effectiveness measure.

Children in care and custody of Children's Division (LS1)

7b. Provide an efficiency measure.

7c. Provide the number of clients/individuals served, if applicable.

7d. Provide a customer satisfaction measure, if available.

2. CORE DESCRIPTION

The Department merged the Teen Crisis Care core and the Crisis Nursery core in FY2011 into Crisis Care.

Crisis Nurseries provide temporary care for children, whose parents/guardians are experiencing an unexpected and unstable/serious condition that requires immediate action resulting in short term care, and without this care the children are at risk for abuse and neglect or at risk of entering state custody. Crisis Nurseries serve children ages birth through 12 years of age (and siblings of these children if necessary). Care for this age group is typically due to an immediate emergency where the parent has no other support systems to provide care and the child is too young to be left alone, such as parental incarceration, another sick child in the household, child care provider calls in sick and the parent must work, parental illness, etc.

Teen Crisis Care provides a safe haven for teenagers, ages 13 through 17 years, who are experiencing a crisis at home. In order to qualify for crisis care services, it must be determined that the teen has no other place to go and without this care is at risk of living on the street or in other inappropriate or unsafe environments, or alternatively entering state custody. Teens experiencing this type of crisis, and lacking a safe haven, may also resort to participation in risky behaviors in order to survive. As a result these teens sometimes fall prey to predators, drug addiction, prostitution, and/or experience serious injury or, in the extreme, death.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Crisis Care

Program is found in the following core budget(s): Crisis Care

1. What does this program do?

Crisis Nurseries provide temporary care for children whose parents/guardians are experiencing an unexpected and unstable/serious condition that requires immediate action resulting in short term care, and without this care the children are at risk for abuse and neglect or at risk of entering state custody. Crisis Nurseries serve children ages birth through 12 years of age (and siblings of these children if necessary). Care for this age group is typically due to an immediate emergency where the parent has no other support systems to provide care and the child is too young to be left alone, such as parental incarceration, another sick child in the household, homelessness, domestic violence, parental illness, etc.

Teen Crisis Care Centers provide a safe haven for teenagers, ages 13 through 17 years, who are experiencing a crisis at home. Teens experiencing crisis, and lacking a safe haven, may also resort to participation in risky behaviors in order to survive. As a result these teens sometimes fall prey to predators, drug addiction, prostitution, and/or experience serious injury or, in the extreme, death.

Older youth seek crisis care services as a result of problems that have been typically building over time, such as an altercation with a parent, being kicked out of their home, parental substance abuse or mental health issues, homelessness, or because of situations that place them at risk of emotional, physical, or sexual abuse. These situations typically take time to resolve or to make alternate more permanent arrangements. As a result, in addition to providing a safe place for a "cooling off period", teen crises typically require providers to assist in stabilizing the crisis within the family through mediation, provide referrals for appropriate intervention services, and/or make the necessary referral to permanent support services within the community.

While there is a cost associated with Teen Crisis Care, if crisis care can preempt a teen from entering state custody, the juvenile justice system, participating in dangerous or risky behaviors, or otherwise ending up on other public assistance, the overall cost to the state is greatly reduced.

Teen Crisis Care and Crisis Nursery services are provided free of charge to families voluntarily accessing services in response to such a family crisis. These services are available twenty-four (24) hours a day, seven (7) days a week. A teen or child will be accepted at a crisis care facility at any time, day or night, if space is available. Crisis Care contracts are awarded through a competitive bid process.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 207.010, 207.020, 210.001, 211.180

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves

Reverted: \$37,500

Note: In FY 2011, the Crisis Nursery and Teen Crisis Care Cores were combined and reallocated to the new Crisis Care Core. Expenditure amounts for FY 2008 thru FY 2010 include expenditures from both Crisis Nursery and Teen Crisis Care.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Child Abuse and Neglect Prevention

Program is found in the following core budget(s): Child Abuse and Neglect Prevention

1. What does this program do?

This program provides services for families and children to prevent child abuse and neglect (CA/N) and to divert children from the state's custody. This funding is used to support programs such as home visitation and to partner with other community groups to provide education and other outreach to parents and children to reduce incidences of child abuse and neglect.

One of the major programs funded from this appropriation is the home visitation program for children ages birth to three. Because the first three years are the time of a child's highest brain building activity, experiences during this time period lay the foundation for a child's future physical, mental, and emotional health and well-being. These experiences, specifically the child's interaction with their parent or primary caregiver, determine a child's future trajectory for better or worse. Losses during these early years are not easily, if ever, regained. Children in this age group are the most vulnerable for serious injury or death related to child abuse or neglect. Parents participating in these programs are connected to Parents As Teachers, receiving parenting and child development education in order to know what is reasonable to expect from typically functioning young children. Examples of some of the agencies providing home visitation services funded directly through DSS or in partnership with the Children's Trust Fund are Nurses for Newborns, First Chance for Children, United Way of Southwest MO, Sunshine Center, New Madrid County Human Resources Council and St. Joseph Youth Alliance.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

None.

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves
 Reverted: \$252,000

6. What are the sources of the "Other " funds?

None.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Foster Care

Program is found in the following core budget(s): Foster Care

1. What does this program do?

PROGRAM SYNOPSIS: The Foster Care program provides alternative living arrangements for children who are removed from their parent or legal guardian and placed in the Children's Division's (CD) custody by the Juvenile/Family court to protect them from abuse and neglect. Maintenance payments to foster parents, clothing allowances, special expenses, contracts for family reunification, foster parent training and respite for foster parents are provided by this program.

Traditional Foster Care Program

The purpose of foster family and foster family group home care is to provide the least restrictive environment for children committed to the care and custody of the Division by an appropriate court. The Division must place and provide care to all children committed to its care and custody and to their families. The majority of these children have come to the attention of the Division and the court due to serious physical, medical, or educational neglect, and/or serious physical, sexual, or emotional abuse. Other children are placed in the custody of the Division as a result of status offenses such as truancy, runaway behaviors, and poor parent/child relationships. The courts sometimes place children in the Division's custody who might otherwise be better served by the Division of Youth Services or the Department of Mental Health.

By law, the court must determine that all reasonable efforts have been exhausted to reduce risk to the child and prevent out of home placement and that the child(ren) must be removed from the home and placed in the custody of the Division. The Division then has a responsibility to provide for the physical, medical, educational, and social/behavioral needs of the child(ren). The Division must also develop and implement, in a timely manner, the most appropriate treatment plan for the family in order to facilitate early reunification or other permanent plans for the child. Children are returned to the custody of their parents or placed in other permanent homes only upon an order of the court.

To make payment for a child while in out-of-home care the child must be described in the court order as abused/neglected or having committed a status offense and be placed with a licensed and contracted family or facility or a licensed relative.

Traditional foster home and licensed relative care providers caring for IV-E eligible (Foster Parents get paid regardless of child's IV-E status) children, receive a standardized monthly maintenance payment to cover daily living expenses such as room, board, clothing, and incidentals, and an additional annual clothing allowance based on the age of each child. Foster/relative families caring for children between the ages of 0-36 months also receive an additional \$50 per month to help meet the special needs of infants, such as diapers, formula, clothing and supplies. Foster homes who serve children with elevated needs (career, behavioral and medical foster care) receive payments based on the placement type of the child.

All foster children, regardless of placement type, are eligible to receive medical/dental care, including services available through the Healthy Children and Youth Program, MO HealthNet's Managed Care Program (limited to specific areas of the state), Children's Treatment Services (CTS), Title XIX Child Care and special medical and non-medical expenses.

The Children of Youth in Alternative Care (CYAC) program allows for the provision of maintenance, special expenses, and Title XIX for a child who is born to a youth in the Division's custody. The parent and child must be in the same eligible placement.

Youth with Elevated Needs--Level A Program

Youth with Elevated Needs--Level A (formally Behavioral) is a foster family placement program designed for children who have moderate to severe behavior problems. These children require a family setting that can provide greater structure and supervision than normal. The program began as a demonstration project in 1985, in response to the increasing number of children with diverse and complex needs which were not being met through existing Alternative Care placement resources. These children experience multiple placements due to their unacceptable behavior and/or uncontrollable behavior in traditional alternative care placements. This program is also available to children who are placed in residential facilities and psychiatric hospitals due to moderate to severe behavior problems and who require a very structured family setting.

A goal of the Youth with Elevated Needs-Level A Program is to provide children with moderate to severe behavior problems with an individualized, consistent, structured family setting in which they can learn to control behaviors which prohibit their ability to function in a normal home setting and in society. Level A Foster Care is not meant to replace appropriate residential treatment placement. However, it is intended to provide an alternative to residential treatment for children experiencing moderate to severe behavioral problems. In order for the Level A foster parent to provide the structure, consistency and individualization these children require, they are allowed to care for no more than two Youth with Elevated Needs at a time. It is imperative that the Children's Division do everything possible to adequately prepare and support Level A (resource) parents to effectively care for and intervene on behalf of the children placed in their home.

Families/individuals interested in providing care for these children must meet all foster home licensing requirements and receive an additional 18 hours of behavioral foster care training. The Level A Foster Care parent is to serve as the primary change agent for these children and must provide a firm, consistent, nurturing and normalizing environment in which the children receive twenty-four (24) hour supervision. They receive a higher monthly rate to ensure the consistency, availability and intensity of care these children require. Some of their responsibilities include:

- Develop and implement a structure of discipline and intervention which encourages self-responsibility and mutual concern for all members of the household in conjunction with the Level A Foster Care team
- Prepare each child, with age appropriate "living" skills needed to function, i.e., personal hygiene, coping skills, money management, parenting skills, home management, job search, interpersonal and social skills
- Set and communicate specific behavioral limits for the child
- Impose pre determined consequences when those limits are exceeded
- Provide day to day implementation and monitoring of the child's treatment plan and services as agreed upon with other treatment staff
- Complete periodic reports on the progress of the child in meeting both long and short term treatment goals
- Be available for consultation with other treatment team members
- Attend all staffings, permanency planning reviews and court hearings as allowed by the court
- Provide transportation for the child to and from necessary appointments, medical care, daily activities, home visits, etc.
- Attend and participate in those activities in which the child routinely engages, such as school, counseling, community activities, etc.
- Work with the birth parents, as needed or deemed appropriate, to prepare them for the child's return, and to maintain a sense of family

CD staff and the Level A Foster parent meet monthly to assess the child's need for continuing this level of care. A formal reassessment is completed every 6 months.

Medical Foster Care Program

The Medical Foster Care Program was designed to provide care and treatment to children in alternative care with acute medical problems or severe physical/mental disabilities. The goal of this program is to assure that children are cared for in the most appropriate and "least restrictive" setting. Through the Medical Foster Care Program, the children will not have to remain in a hospital, rehabilitative, or institutional setting to assure they are receiving proper care. These children will be able to function in a family setting and still receive the proper care necessary to their survival. It is essential that the Medical Foster Care Parent work together with other professionals who are involved in the treatment of the child in order to assure the child receives the care and treatment he/she needs.

Other service agencies in the community, for example, the Division of Developmental Disabilities or Social Security, may also be involved to determine their agencies' capability to assist with planning for the child.

Some examples of children who qualify for Medical Foster Care include those suffering from: "shaken baby" syndrome, multiple sclerosis, cerebral palsy, muscular dystrophy, severe apnea, debilitating heart/lung/kidney conditions and failure to thrive, drug affected children, wheel chair bound children who suffer from complications of other illnesses and severely mentally challenged children with complicating illnesses. In many cases, the child will be eligible for Medical Foster Care on a temporary basis with the termination of eligibility due to the successful treatment of the medical/physical condition that prompted the original placement in the Medical Foster Care Home. Monthly, Children's Division staff and the Medical Foster Care Parent assess the child's need for continuing this level of care. Every six (6) months a formal reassessment is required to determine the progress of the child and the continued need of Medical Foster Care. Chronically ill or terminally ill children may require this level of care to adulthood.

Families/individuals interested in providing this specialized level of care for children and youth who qualify must meet all foster home licensing requirements and must possess the experience, time and commitment to provide necessary service to the Medical Foster Care child. The families/individuals also must receive child specific training from the medical professionals currently caring for the child in the hospital, rehabilitative setting, or institution. Medical Foster Care families receive a higher monthly rate to insure the level of care, availability, and intensity of care these children require. Some of their responsibilities include:

- Provide day-to-day implementation and monitoring of the medical and/or developmental treatment plan and services as agreed upon with other treatment staff involved.
- Assist the child to accept, understand and overcome his/her disabilities.
- Assist in the training/education of the birth parent(s) on how to care for their special needs child in order to facilitate the child's return to the birth home.
- Provide transportation for the child to and from necessary appointments, medical care, daily activities, etc.
- Attend all staffings, permanency planning reviews and court hearings as allowed by the court.

These children require far more than the routine daily care of children in non-medical settings. This may include assistance with bathing, eating, dressing and their normal activities. They may also require medical treatments on a daily basis and/or frequent trips for medical care/therapy.

Youth with Elevated Needs--Level B Program

The Level B (formerly Career) Foster Parent Program was developed as a result of seeing an influx of children with diverse and complex needs that were not adequately met through existing traditional foster care. These children experienced multiple placements as they were moved from foster family to residential care and back again in an attempt to secure stability. Such moves were often expensive and very traumatic for the children. A goal of the program is to provide children who exhibit other serious behavior and emotional disorders with intensive individualized intervention in a family and community based setting. Level B placements are to be viewed as a transitional placement designed to stabilize the child and prepare him/her for a less structured environment, i.e., traditional foster care, family reunification and/or successful independence.

Children who qualify for individualized care will likely be very challenging. They may pose a threat to the safety of themselves, others, or property and at times are non-responsive to behavior modification techniques or more traditional disciplinary measures. Due to the severity of the children's needs, the Level B Foster Parents are not allowed to care for more than two individualized care children at the same time, with a total of no more than four alternative care children.

Families/individuals interested in providing care and specialized intervention for children and youth that qualify for individualized care must meet all foster home licensing requirements, receive an additional nine (9) hours of Level B foster parenting workshops in addition to the 18 hours of specialized training, and demonstrate the skills required to care for children requiring individualized care. The Level B Foster Parent is to serve as the primary change agent for these children and must be available to respond immediately to any problem experienced or created by the child whether it be at home, at school or in the community.

Level B Foster Parent homes receive a higher daily rate to ensure their availability to meet the needs of the children. Some of their responsibilities include:

- Providing the child opportunities for recreational/social activities
- Serving as a professional team member in developing appropriate plans for the child's care and treatment
- Working with natural parents to help them understand and manage the child's individual problems and preparing them to resume responsibility for the care of their child
- Maintaining detailed and accurate reports of significant events involving the child, and arranging and transporting the child to all medical, dental and therapy appointments.

Monthly, CD staff and the Level B parent meet to assess the child's continuing need for this level of care. A formal reassessment is completed every 6 months.

Kinship Care Program

The Kinship Care Program exists as a placement of choice for children who must be removed from their homes. Kinship care provides children in the custody of the Children's Division with familiar caretakers who have previously been involved with the family. Kinship foster care providers are defined as those persons who have established a relationship with the child before the child entered foster care. Kinship care providers are unrelated to the child, but have an enduring relationship with the child or family.

Kinship providers are required to become licensed foster care providers for children, unless the Juvenile Court orders placement in their home. Kinship providers must successfully complete required pre-service training and must cooperate with the completion of a home study before they can be licensed for the placement of children. However, children may be placed on an emergency basis prior to training and licensure. The family must have a check of the home and checks for criminal and child abuse/neglect history completed before a child is placed in the home. The family must complete training and meet all licensing requirements.

Relative Care Program

The Relative Care Program exists as a placement of choice for children who must be removed from their homes. Relative care provides children in the custody of the Division with familiar caretakers who have previously been involved with the family. Relative foster care providers are persons, related by blood or marriage to the child, who have established a relationship with the child before the child entered foster care. Relative care providers must also meet the same licensing / approval standards as non-relative foster homes.

Emergency Foster Care Program

The Emergency Foster Care Program was designed to meet the needs of children who, after careful assessment, are determined to be in serious danger or threatened harm if they remain in the care of their parent(s) and that delivery of protective services will not provide immediate adequate protection for them. In many instances the family and children require immediate, short term separation in order to give time for family members to correct the problems which prevented them from assuring the children's safety and brought the children into care. Emergency Foster Care is not intended to be long term placement and generally is not to exceed thirty (30) days. When possible, the children are placed in relative or kinship homes, and only when these resources are not available, are the children placed in Emergency Foster Care.

Families/individuals interested in providing this level of care for the children and youth that qualify must meet all foster home licensing requirements and must possess the commitment to provide emergency care of children 24 hours a day for a maximum of thirty (30) days. Emergency Foster Care Homes must accept placements of children at any hour of the day, 7 days a week, and agree to maintain bed space, within their licensed capacity, for designated children. Emergency Foster Care parents are paid a higher daily rate for children placed in their homes under this program to compensate for the intensive one-on-one attention these children require and for the twenty-four hour availability.

Respite Care Program

Respite care is the provision of periodic and/or intermittent, temporary substitute care of children who are in the care and custody of the Division, and placed in a licensed foster, relative, or kinship home. It is designed to provide relief from the stresses of the constant responsibilities of providing out-of-home care, and for emergency situations in the care provider's home. It is not for use in regular child care situations when a foster/relative parent would use ordinary child care, i.e., hiring a baby-sitter for an afternoon or evening outing. Licensed foster parents, relatives, and kin for traditional foster children may receive up to 12 units of respite care per year. A unit of care is defined as a minimum of 12 hours, up to 24 hours of care. The goal of respite care is to provide a support service to the care providers in order to retain highly qualified providers who are willing/able to maintain a stable home for the child(ren), thus avoiding unnecessary moves for these children.

Respite care services may be provided in the home of the foster/relative/kinship care provider. Out-of-home respite care may include licensed day care homes, licensed foster, relative, or kinship homes, and residential facilities. Respite care providers must be approved by the Division. This approval process includes Child Abuse and Neglect (CAN) and criminal checks.

Respite care providers for traditional level foster children are not required to, but may attend, regular foster parent pre-service and in-service training. Respite care for Level A (formerly Behavioral) Foster Care and Medical Foster Care (MFC) children should be arranged with other licensed Level A and MFC providers to assure the respite care providers have all the necessary training and skills to appropriately care for these children. The Level B (formerly Career) Respite Program is an integral part of the Level B Foster Parent Program. This program affords the Level B foster parents a regular break from providing for the intensive needs of the children placed in their homes. The Division has a contractual obligation to provide a specified number of units of respite care to Level B foster parents, and staff have a responsibility to ensure Level B foster parents utilize this program on a regular basis.

Foster Parent Training

The primary purpose of foster parent training is to prepare applicants for the roles and responsibilities of foster parenting and to provide existing foster parents with advanced training to enhance their functioning as foster parents. Pre-service training introduces applicants to the goals of foster parenting, provides them with an overview of the entire foster care system, and prepares them for the challenges of parenting foster children. In-service training provides foster parents with the opportunity to strengthen their foster parenting skills in a variety of different areas.

Foster parent applicants and licensed foster parents receive reimbursement for the expenses associated with attending foster parent training. Currently, training attendees are reimbursed for mileage to and from the training site at the prevailing state rate per mile, reimbursed for child care expenses resulting from their attendance at the rate of \$2/child/hour, and reimbursed for expenses associated with out of area travel (meals and lodging) at the prevailing state rate.

Each specialized foster care program has additional pre-service and in-service training requirements for its participants. These specialized training requirements are included with each specialized foster care program summary.

Professional Parenting Program

New Foster Parents must complete the Foster STARS/Adopt STARS pre-service training and assessment program which consists of 27 hours of classroom training and must also successfully complete the family assessment process. Relative and kinship care providers must complete the STARS for the Caregiver Who Knows the Child pre-service training which consists of 9 hours of classroom or one-on-one training and also need to successfully complete the family assessment process. The STARS programs were designed to strengthen the quality of family alternative care services in Missouri. The STARS curriculums are competency based and give families the tools and skills they need to protect and nurture foster children; meet children's developmental needs; support relationships between children and their families; connect children with safe nurturing relationships intended to last a lifetime; and work as a member of the family support team. Families must demonstrate competence in the aforementioned areas before they are licensed as Professional Parents. Professional Parents are expected to work closely with birth families and are required to obtain 15 hours of training annually after they are licensed.

Once the Professional Parenting Training is complete, the foster, relative or kinship care providers receive an additional \$100 per month per child along with their normal monthly maintenance amount. Relative and kinship care providers may continue to be licensed but not receive the professional parenting payment of \$100 if they choose to not obtain the necessary annual training hours. Foster parents may not opt out of this requirement. This exception is made for relative and kinship care only.

Staff are required to meet with all licensed foster, relative and kinship care providers within 30 days of initial licensure to develop the Professional Family Development Plan. This plan is designed to help staff and providers plan the training and supports needed to help the provider develop as a professional parent for the Division. This plan is reviewed annually and updated every two years at the time of the family's license renewal.

Tuition Waivers- The tuition waiver funding can cover the cost of tuition and fees to a Missouri public, 4 year or 2 year, institution of higher education. Current and former foster youth are eligible for the waiver if they were in care on their 18th birthday or were adopted after the age of 14. The youth must meet other eligibility criteria. The tuition waiver funding will only be used after all other funding sources have been exhausted. A Memorandum of Understanding (MOU) with the Children's Division and Higher Education is in the process of being developed.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 210.292, 211.031, 453.315; Statute 173.270;
42 USC Sections 670 and 5101.

3. Are there federal matching requirements? If yes, please explain.

For expenditure purposes, children and youth receiving services from the Children's Division are grouped into two categories - Homeless Dependent and Neglected (HDN) and IV-E. Expenditures for HDN children and youth are 100% state funded while expenditures on behalf of IV-E children and youth are eligible for federal funding. The IV-E program rate of federal reimbursement is the FMAP (Federal Medical Assistance Percentage). The FMAP fluctuates annually based on state and national economic and population data, but generally the state matching requirement is around 36% and the federal match 64%. There is a 50% state match (50% federal earned) for IV-E administrative costs and a 25% state match (75% federal) for IV-E training costs. Some non-matchable expenditures in the foster care program are used to earn the IV-B Part 2 Family Preservation grant that supports the Children's Division.

4. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who are abused and neglected. Administrative activities related to these obligations would be considered mandatory.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This request continues funding for services for children in the care and custody of Children's Division. Shortfalls are projected in programs funding children's placement costs - Foster Care, Residential Treatment and Transitional Living - and in programs funding services - Children's Treatment Services and Independent Living Services. Shortfalls are due to an increase in the number of children entering the care and custody of the Children's Division. The request was not included in the department cycle because information regarding caseload growth was not available until after the October submission. This funding is requested in the Foster Care appropriation as the largest shortfall exists in this section.

State Statute RSMo. 210.292, 211.031, 453.315. 42 USC Sections 670 and 5101.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

DSS anticipates funding shortfalls totaling \$20.8 million for child welfare services for children in state custody due to caseload growth. This amount is offset by \$13.8 million in the Children's Program Pool. Funding was transferred from the Adoption Subsidy appropriation to the Foster Care appropriation to reduce the needed funding. Also, additional federal dollars from the Fostering Connections Act of 2008 will help offset the GR need by \$2.5 million dollars.

2. CORE DESCRIPTION

This appropriation provides funding for residential based services necessary for children who are either status offenders or have emotional or psychological difficulties. These funds are used to pay contracted residential facilities, the specialized care contract, and to help de-institutionalize youth with severe needs.

In the past both rehab title XIX reimbursable services and non-rehab services provided by contracted residential facilities were paid from this appropriation. In FY2009, funding for rehab title XIX reimbursable services was transferred to MO HealthNet Rehab and Specialty Services. This appropriation includes funding for non-rehab services (title IV-E reimbursable or state paid) provided by contracted residential facilities.

Voluntary Placement Agreement

This appropriation provides funding to reimburse the Department of Mental Health (DMH) for services provided to youth with mental illness placed in out-of-home care through a Voluntary Placement Agreement (VPA) pursuant to 210.122 RSMo. The VPA is a written agreement between DSS/Children's Division and a parent, legal guardian, or custodian of a child under the age of 18 for the purpose of securing an out-of-home placement and diverting the youth from entering state custody solely to access mental health services. DMH must conduct an assessment and certify the appropriateness of the placement. DMH places the child, administers the placement, and provides care and treatment for the child while he/she is under the VPA in accordance with 13 CSR 35-30.010.

S.B. 1003 Arrangements

This appropriation provides funding to reimburse the Department of Mental Health (DMH) for services provided to youth when the court has taken jurisdiction pursuant to 211.031.1(d) RSMo, because the child is in need of mental health services and the parent, guardian, or custodian is unable to afford or access appropriate mental health treatment or care for the child. The funding allows the child to receive services through a court approved individualized service plan with the court terminating jurisdiction and returning custody to the parent/custodian.

NOTES:

FY 2008 - Received funding for IV-E and Residential Rehab rate increases.

FY 2009 - Received funding for IV-E and Residential Rehab rate increase. \$42.1 million was transferred to MO HealthNet Rehab & Specialty Title XIX for the Rehab component of Residential Treatment. There was a federal fund reserve of \$650,000 for empty federal authority.

FY 2010 - Transferred in \$9,518,867 from Psychiatric Diversion. Received funding for IV-E Residential rate increase.

FY 2011 - There was a core reduction of \$1,200,000 for better management of the VPA program.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Residential Treatment Services

Program is found in the following core budget(s): Residential Treatment Services

1. What does this program do?

PROGRAM SYNOPSIS: Provides for residential rehabilitative treatment necessary for children who are either status offenders or have emotional or psychological difficulties. Contracted residential facilities provide these services for children.

Some children who are status offenders and some children who have been abused or neglected and/or have emotional or psychological difficulties require treatment in a residential environment. There are various levels of residential services available to these youth and children, depending on specific needs. Two basic federal funding streams partially help fund Residential Treatment; Title IV-E and Title XIX. Types of residential care include emergency, levels 2-4, family-focused, infant/toddler, maternity and maternity with infant. In addition, for a select number of children with severe behavioral health needs, residential treatment services include an integrated delivery system managed by care management organizations (CMOs). Each of these residential care types is discussed below.

In FY 2010 two distinct residential contracts were awarded to providers. The first is the Residential Rehab contract which covers services necessary to address the behavioral needs of children and transition them to Community-Based settings through rehabilitative planning, evaluation and service delivery. Children served under this contract have completed an assessment (CSPI) to establish eligibility. The second is the Residential Treatment IV-E contract which provides room, board and supervision to children placed in residential settings. The focus of this second contract is to cover placement costs rather than actual services. Children served under this contract are typically those under the age of 7 and children in need of emergency placement, or young women in need of maternity and infant care.

Due to federal movement to limit Title XIX rehabilitation services for children in the state's custody, the decision was made to revamp these two contracts. The new Residential Treatment Agreement, which is currently being piloted, will use a combination of federal Title IV-E and federal Title XIX rehab funding. This agreement explicitly addresses both room and board and treatment costs for any child placed in residential care and ensures that the appropriate federal funding sources are utilized. The room and board component and treatment costs for children will be paid on a separate per diem basis as determined through industry cost reports and an approved rehabilitative treatment plan with the objective to transition the payment of the treatment costs to a fee-for-service basis in accordance with an approved rehabilitative treatment plan. A child's severity of need as determined by the rehabilitative treatment plan will determine the level of rehabilitative services which they will be authorized to receive from the residential agency.

A separate Residential contract will remain for children who are not eligible for reimbursement under federal Medicaid Rehab requirements. The contract includes Emergency Shelter, children under the age of 7, and women in need of maternity and infant care.

The revisions to the residential contracts allow the Department to maintain compliance with federal requirement, strengthen Medicaid rehab claiming protocols, maintain compliance with federal district court order to base room and board reimbursements on cost-based methodology, and simplify contract management for the Department and Residential Treatment Service providers.

The new contracts continue to offer the following service array:

Emergency Shelter:

Emergency Shelter is appropriate for children who are in need of a temporary living arrangement other than their own home, which will assure a safe and protected environment.

Level 2/Moderate/Residential:

Level 2 Residential Care is appropriate for children who are in need of twenty-four hour care in residential treatment facilities where treatment can be provided via a controlled environment and a treatment program that can be changed or adjusted according to the needs of the individual child.

Level 3/Severe/Residential:

Level 3 Residential Care is appropriate for children who are in need of twenty-four hour care in a stable, structured, therapeutic environment that focuses on bringing all components of treatment together to accommodate a child's emotional and growth needs during the stay, and subsequent to the stay at the residential facility. This level of treatment is similar to Level 2, but encompasses a more intensive program for the child.

Level 4/Psychiatric/Intensive:

Level 4 Residential Care is appropriate for children who have previously received care in an acute psychiatric hospital but are not currently in need of inpatient psychiatric treatment or children whose treatment needs cannot be met by any of the residential care facilities contracted with the state agency to provide treatment to children with severe needs.

Aftercare Services:

Aftercare Services are provided to eligible youth and their families. Services are intensive, time-limited, and designed to expedite the youth's return home from residential care to the family of origin or another placement resource identified by the written treatment plan. Services provided to the child parallel those of Level 3 Residential Services and include an intensive in-home component.

Maternity Residential Services:

Maternity Residential Services are directed toward pregnant adolescents for whom a family or family-like resource is not available to help prepare them for a safe, healthy delivery, subsequent positive parenting and planned self-sufficiency.

Maternity Residential Services with Infant:

These residential services are directed toward parenting adolescents and their newborn infants for whom a family or family-like resource is not available, so as to demonstrate and promote positive parenting and subsequent self-sufficiency.

Infant/Toddler Residential Services:

Infant/Toddler Residential Services are directed toward children under the age of seven, including those who are medically fragile, drug/alcohol-affected and/or severely emotionally disturbed for whom a family or family like resource is not available.

FY11 Level of Care/Current Daily Ceiling Rehab Rates

Emergency	\$79.85
Level II (Moderate)	\$91.11
Level III (Severe)	\$109.73
Level IV (Psychiatric)	\$143.63
Family Focused	\$128.04

FY 11 Level of Care/Current Daily Ceiling Non Rehab (IV-E) Rates

Basic (Emergency, Maternity and Maternity/Infant)	\$136.28
Residential (Level II and III)	\$112.59
Infant (Infant/Toddler)	\$159.29
Intensive (Level IV)	\$133.58

Specialized Care Management Contract (formerly Interdepartmental Initiative for Children):

The Interdepartmental Initiative for Children with Severe Needs was a consortium of the Departments of Elementary and Secondary Education, Health, Mental Health and Social Services designed to address a more responsive approach to children with severe behavioral health needs that negatively impact their ability to remain in their homes and communities. Effective April 1, 2006, youth served under the former Interdepartmental Initiative contract were subsumed by the Children's Division's (CD) new Specialized Care Management Contract. These children's severe behavioral health issues negatively impact their placement success in traditional Children's Division residential care, Mental Health residential care or Mental Health hospitalization. These children and their families have complex interaction with mental health, medical, social services, legal, and education systems. They often receive a series of increasingly intense and expensive state services including long-term placement in residential care. Effective July 1, 2007, there are now specialized care contract outcomes to measure child safety, permanency, stability, and well-being.

The Specialized Care Management contract award covers four (4) counties of Eastern, eighteen (18) counties of Central Missouri, Jackson County, and nine (9) counties in Southwest Missouri. Approximately 400 children ages 6 - 20 years may be served.

Voluntary Placement Agreements:

This program allows children to receive appropriate and necessary services, which includes out-of-home placement, to address mental health needs. The VPA allows the parent to retain custody of their child while receiving services which the parent can not afford or access. The VPAs can not exceed 180 days. The ultimate goal is to provide services and reunify the child with his/her parent(s) as quickly as possible.

S.B. 1003 Arrangements:

Children can be placed in the custody of the Children's Division solely to access mental health services when no abuse or neglect has occurred. This program allows children to receive appropriate and necessary services to address mental health needs when custody of the child has been returned to their parent/custodian. The child receives services which the parent can not afford or access, with the court terminating jurisdiction and returning custody to the parent/custodian.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute RSMo. 210.481 - 210.531;
42 USC Sections 670 and 5101; 210.122 RSMo, 13 CSR 35-30.010; 208.204 RSMo.

3. Are there federal matching requirements? If yes, please explain.

For some children, residential treatment costs paid from this appropriation are IV-E reimbursable. The effective reimbursement rate when accounting for both IV-E reimbursable and state only costs is 22% federal/78% state.

4. Is this a federally mandated program? If yes, please explain.

Yes. The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who have been abused and neglected.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves
 Reverted \$300,000
 Reserve \$400,000

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Foster Youth Educational Assistance

Program is found in the following core budget(s): Foster Youth Educational Assistance

1. What does this program do?

The purpose of the program is to provide youth in foster care or former foster youth (within specified age parameters) with financial assistance for tuition and other fees associated with cost of attendance to attend post-secondary education or training programs. Early and on-going support for education is extremely important in preparing youth for self-sufficiency. The Foster Youth Educational Assistance Program gives the Children's Division the opportunity to provide funds to assist eligible youth interested in pursuing a higher education to reach their goals.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Education Training Voucher (ETV): Promoting Safe and Stable Families Act of 2001. Amended section 477 of the Social Security Act to add sixth purpose for the Chafee Foster Care Independence Act.
Tuition Waiver: Missouri House Bill 481, Section 173.270.

3. Are there federal matching requirements? If yes, please explain.

ETV: State must match 20% of funds by in-kind or cash.
Tuition Waiver: No.

4. Is this a federally mandated program? If yes, please explain.

ETV: States receive funding to provide this service to youth and are required to report on the goals and objectives each year through the Annual Progress and Services Report.

Tuition Waiver: No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

7a. Provide an effectiveness measure.

7b. Provide an efficiency measure.

7c. Provide the number of clients/individuals served, if applicable.

7d. Provide a customer satisfaction measure, if available.

The passage of the 2009 HB 481, Section 173.270, expanded eligibility for Tuition and fee payments awarded to youth in foster or residential care and eligible for adoption on or after their fourteenth birthday. The Children's Division's Education Training Voucher Program does not currently include youth who are in custody at the age of 14 and 15 unless they remain in care until age 17 1/2 or are adopted or who have obtained legal guardianship after the age of 16. This legislation also increased the amount that could potentially be awarded to eligible foster/residential care youth by not indicating a maximum award amount per student.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The number of eligible youth not already being served under Children's Division's current Education Training Voucher that would qualify for assistance through the Tuition Waiver program less the amount already funded by the General Assembly for FY 2011.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Foster Care Case Management Contracts

Program is found in the following core budget(s): Foster Care Case Management Contracts

1. What does this program do?

The Children's Division contracts with consortiums to provide foster care case management services to children who have been removed from their homes and are under the jurisdiction of the Juvenile Court. These children have been abused and/or neglected or were found to be at serious risk of such. The goal of the performance based management contracts is to improve safety and timely permanency for these children, while also reducing re-entries into care.

Ten contracts are in place as follows:

Central

Central Children's Coalition

Kansas City

Cornerstones of Care
Family Advocates

South Central

Central Children's Coalition

Southwest

Southwest Children's Coalition

Springfield

Southwest Children's Coalition
Springfield Partners

St. Louis

Missouri Alliance for Permanency Partnership
Children's Permanency Partnership
St. Louis Partners

Services purchased include the following: assessments, treatment planning, placement planning, service planning and permanency/concurrent planning. In addition, the contractors are expected to develop community resources to serve these children, including relative, foster and adoptive homes. Included in the case rate to these providers is funding for services such as counseling, funding to purchase items to meet the family's immediate needs and funding to purchase items such as clothing on behalf of the child who has been removed from their home.

Performance outcomes were incorporated into these contracts with the expectation that contractors achieve these outcomes. The performance measures are reviewed and renegotiated at the time of the contract renewal.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 210.112.

3. Are there federal matching requirements? If yes, please explain.

For expenditure purposes, children and youth receiving services from the Children's Division are grouped into two categories - Homeless Dependent and Neglected (HDN) and IV-E. Expenditures for HDN children and youth are 100% state funded while expenditures on behalf of IV-E children and youth are eligible for federal funding. The IV-E program rate of federal reimbursement is the FMAP (Federal Medical Assistance Percentage). The FMAP fluctuates annually based on state and national economic and population data, but generally the state matching requirement is around 36% and the federal match 64%.

There is a 50% state match (50% federal earned) for IV-E administrative costs and a 25% state match (75% federal) for IV-E training costs.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves
Reverted: \$435,876

6. What are the sources of the "Other " funds?

N/A

2. CORE DESCRIPTION

Adoption/Guardianship Subsidy is a financial assistance program for special needs children (Section 453.065 RSMo.) who do not have an adoptive family readily available to adopt them or children who achieve guardianship in accordance with Section 453.072 RSMo. This appropriation covers maintenance and expenses such as legal costs paid to adoptive parents. Subsidized guardianship provides eligible relatives with the same services that adoptive parents would receive for their adopted child. In addition, contracts for the development of resource families are funded from this appropriation.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Adoption/Guardianship Subsidy

Program is found in the following core budget(s): Adoption/Guardianship Subsidy

1. What does this program do?

PROGRAM SYNOPSIS: Adoption/Guardianship Subsidy and Services is a financial assistance program available on behalf of children who have special needs and who do not have an adoptive family readily available to adopt them or who achieve permanency through guardianship. This program covers maintenance and expenses such as legal costs involved in the adoption/guardianship, which are reimbursed to the adoptive parents or legal guardians. Guardianship Subsidy and Services provides eligible relatives with the same services for their guardian child that an adopted child would receive.

Adoption Subsidy

Adoption/Guardianship Subsidy is a financial assistance program available to children who are designated as having special needs (Section 453.065 RSMo.) and who do not have an adoptive family readily available. Payments are made to the adoptive parent on behalf of the child. The subsidy is available to children in the care of the Children's Division, the Division of Youth Services, the Department of Mental Health and licensed child placing agencies. Under certain circumstances, it may also be available to a child who is not now, but has previously been in the custody of the Children's Division.

Subsidized Guardianship

Senate Bill 1 (1999) created a subsidized guardianship program that provides eligible relatives with the same services that an adopted child would receive under the Adoption Subsidy program. Relatives who qualify for this program are grandparents, aunts, uncles, adult siblings and adult first cousins who have legal guardianship of a minor child.

For the purposes of this program, the term "legal guardianship" refers to the legal guardianship established by a probate court under the provision of the probate court code of the Missouri Revised Statutes.

Adoption/Guardianship Subsidy Agreements

Payment for maintenance, services provided by Title XIX, psychological services, legal services related to the adoption/guardianship, and other special services are authorized through an Adoption/Guardianship agreement. This agreement is determined through an evaluation of the needs of the child.

The agreement is legally binding.

The Adoption/Guardianship Subsidy agreements may be renegotiated at the request of the adoptive parent(s)/guardian(s) at any time when changes in the needs of the child or the circumstances of the family are brought to the attention of the Division through an amendment to the agreement. All Adoption and Guardianship agreements expire when a child reaches age 18. In the case of adoption subsidy only, an 18+ agreement may be negotiated with the family on a yearly basis to a maximum age of 21 when there is a documented extraordinary mental health, physical or dental need.

Current Rate of Payment FY11

Age 0-5	\$232/mo.
Age 6-12	\$283/mo.
Age 13-Over	\$313/mo.
Elevated Needs (Behavioral/Medical)	\$671/mo.

11.5% of children receiving Adoption or Legal Guardianship Subsidy had a rate higher than the standard due to behavioral and medical issues, which increases the cost of care.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 453.005 - 453.170;
42 USC Sections 670 and 5101

3. Are there federal matching requirements? If yes, please explain.

For expenditure purposes, children and youth receiving services from the Children's Division are grouped into two categories - Homeless Dependent and Neglected (HDN) and IV-E. Expenditures for HDN children and youth are 100% state funded while expenditures on behalf of IV-E children and youth are eligible for federal funding. The IV-E program rate of federal reimbursement is the FMAP (Federal Medical Assistance Percentage). The FMAP fluctuates annually based on state and national economic and population data, but generally the state matching requirements is around 36% and the federal match 64%. There is a 50% state match (50% federal earned) for IV-E administrative costs and 25% state match (75% federal) for IV-E training costs.

4. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who are abused and neglected.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Independent Living

Program is found in the following core budget(s): Independent Living

1. What does this program do?

PROGRAM SYNOPSIS: The Chafee Foster Care Independence Program replaces the Independent Living Initiative. This program targets youth who are likely to remain in foster care until 18 years of age and beyond by helping them to make a successful self-sufficient and productive transition to adulthood. Chafee services are used to assist youth ages 14-21 who are currently in foster care, as well as youth who exited foster care after the age of 16 to guardianship or adoption in achieving their own goals for self-sufficiency and to assure they recognize and accept responsibility in preparation for and successful transition into adulthood. In addition, financial, housing, counseling, employment, education, and other appropriate support services are provided to former foster care recipients between 18 and 21 years. This program complements these youth's own efforts to become self-sufficient.

The Chafee Foster Care Independence Program, established in section 477 of the Social Security Act, replaces the former Independent Living Initiative. The former Title IV-E Independent Living Initiative (established in 1986) governed implementation of most federally supported independent living services from 1987 until December 14, 1999, when the Foster Care Independence Act became law. The former Independent Living Initiative made services available to young people who were ages 16-18 in Title IV-E foster care.

The Chafee Foster Care Independence Program:

- Increases funding for independent living activities
- Offers assistance for young people ages 18 to 21 who have left foster care for emergency/crisis intervention services
- Emphasizes the importance of securing permanent families for young people in foster care
- Expands the opportunity for states to offer Medicaid to young people transitioning from care
- Increases state accountability for outcomes for young people transitioning from foster care

The purpose of the Chafee Foster Care Independence program is to assist foster and former foster youth in achieving positive outcomes in their transition to independent adulthood. Youth are referred by their case manager to Chafee services offered through contracted providers. Chafee services are used to assist youth in achieving their own goals for self-sufficiency and to assure they recognize and accept responsibility in preparation for, and the successful transition into, adulthood.

Chafee funds are also utilized to continue supporting Missouri's Aftercare program for youth who have exited state custody at age 17 1/2 or older, but have not yet reached age 21. Additionally, funds are used for the administration and facilitation of the foster youth advisory boards.

An array of services is available through the Chafee Foster Care Independence Program. Contracts to provide Chafee services were awarded on November 1, 2007. The contractors provide services to all foster youth, ages 14 through 21, who are referred to the program. Services focus on academic achievement, job readiness, community services and support, youth leadership, and independent living skills. Contractors assess the needs of each individual youth and provide necessary life skills training or assist the youth in obtaining appropriate resources.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 207.010, 207.020, 210.001; Federal law: P.L. 99-272.

3. Are there federal matching requirements? If yes, please explain.

Yes. There is a 20% state match required to earn the Chafee grant. This state match comes from other programs' expenditures.

4. Is this a federally mandated program? If yes, please explain.

Independent Living is a federally funded and mandated program.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

N/A.

7a. Provide an effectiveness measure.

7b. Provide an efficiency measure.

7c. Provide the number of clients/individuals served, if applicable.

The number of children (as of June 30, 2010) that were eligible to receive services through the Independent Living program was 3,373 (LS1 children ages 14 through 21). In addition, this program funds the youth in an LS8 placement (Chafee youth) as described below.

2. CORE DESCRIPTION

Transitional Living Program (TLP) funds are used to move youth from structured family or residential settings to group homes, apartments, or with advocates to facilitate their move to adult independence. These funds are paid directly to the youth in the advocate program and to contractors for group home and apartment programs. Youth in TLP are typically moving from a residential treatment program to a planned permanent arrangement. This program provides oversight, life skills teaching, and supervision to ensure the transition is successful.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Transitional Living

Program is found in the following core budget(s): Transitional Living

1. What does this program do?

PROGRAM SYNOPSIS: The Transitional Living Program (TLP) provides a living environment which is in the best interest of youth and paves the way for youth to transition from alternative care to independence and achieve self-sufficiency. In this program youth move from structured family or residential setting to group homes and apartments, or lives with an advocate (TLA program) in order to facilitate their move to adult independence. Youth in TLP typically have the permanency goal of Another Planned Permanent Living Arrangement. This program provides oversight and supervision to ensure the transition to self-sufficiency is successful.

The Transitional Living Program (TLP) is a placement option for youth, age 16 and over, who are moving from a structured family or residential setting, and whose permanency plan is independence. Placement types in TLP include group home and single/scattered site apartments and the Transitional Living Advocate program.

Entry into TLP must be planned by the youth's Family Support Team and authorized by the Children's Division.

The desired outcomes include increasing the numbered of youth who:

- have resources to meet their living expenses,
- have a safe and stable place to live,
- are successfully working toward completion of academic/vocational goals,
- have positive personal relationships with adults in the community,
- are avoiding high-risk behaviors,
- are able to access needed physical and mental health services,
- have or can obtain essential documents.

Transitional Living Group Home and Single or Scattered Site Apartments:

The Transitional Living Program is appropriate for older youth who are in need of guidance, coaching, and mentoring in a safe and supervised environment to learn independent living skills in a community setting. Desired outcomes include education, employment, self sufficiency, and community involvement.

Transitional Living Group Home (TLGH):

A licensed and contracted Residential Care Agency operating a site dedicated solely to residents, ages 16 through age 18, who have a goal of Another Planned Permanent Living Arrangement. The program intent allows the residents to learn and practice life skills in a group setting with on-site supervision in accordance with residential treatment facility licensing rules. It offers youth the opportunity to transition smoothly from a more restrictive environment to a less restrictive setting based on the readiness of the youth.

Transitional Living Single/Scattered Site Apartments (TLSS):

An approved and contracted living arrangement dedicated solely to resident(s), ages 18 through 20, who have demonstrated the ability to make responsible decisions, maintain employment, and have a clear understanding of the financial and emotional demands of living independently, and who have a plan of independent living. The program intent allows the resident(s) to learn and practice life skills, and prepare for the future in an apartment setting. Youth receive support and guidance but supervision is minimal.

Transitional Living Advocacy Program

Transitional Living Advocate (TLA) program provides a safe and familiar setting for youth to live and continue life skills training. Youth in this setting receive encouragement and guidance in regard to employment, education and/or training in order to prepare for a successful transition from Children's Division custody. The advocate for the youth must be at least age 21, may be married or single and is willing to provide the time, a home, supervision and support needed by the youth transitioning out of care. TLAs must have flexible attitudes and expectations of the youth during this time of transition. They must have an understanding of adolescent behavior and be able to let the youth make mistakes and deal with consequences. Communication is essential when working with youth as well as allowing the youth to form their values. The advocate is aware of community resources that will support the youth's endeavors and must be willing to assist the youth in accessing those services. This type of placement is crucial to the youth's successful transition to adulthood.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 207.010, 207.020;
42 USC Sections 670 and 5101.

3. Are there federal matching requirements? If yes, please explain.

For expenditure purposes, children and youth receiving services from the Children's Division are grouped into two categories - Homeless Dependent and Neglected (HDN) and IV-E. Expenditures for HDN children and youth are 100% state funded while expenditures on behalf of IV-E children and youth are eligible for federal funding. The IV-E program rate of federal reimbursement is the FMAP (Federal Medical Assistance Percentage). The FMAP fluctuates annually based on state and national economic and population data, but generally the state matching requirements is around 36% and the federal match 64%. There is a 50% state match (50% federal earned) for IV-E administrative costs and 25% state match (75% federal) for IV-E training costs.

4. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who are abused and neglected. Administrative activities related to these obligations would be considered mandatory.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Child Assessment Centers

Program is found in the following core budget(s): Child Assessment Centers

1. What does this program do?

Child Assessment Centers (CACs) provide a child friendly setting where children, reported to have been sexually abused, can be interviewed by multi-disciplinary team members and receive a single medical examination. The Children's Division makes grants to the CACs. The funds are used for expenses needed to operate the centers such as salaries, equipment, facility costs, etc. MO Kids First, the organization which represents CACs, develops the funding plan for distribution of these funds which is then reviewed and implemented by the Department.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statutes: RSMo. 210.001.

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves

Reverted: \$44,969

2. CORE DESCRIPTION

The purpose of this appropriation is to provide a mechanism for the Children's Division (CD) to forward Title IV-E funds to the Juvenile Courts when children are placed in Juvenile Court Residential facilities. When children are in the custody of the Juvenile Court, providing the Juvenile Courts with the Title IV-E match for maintenance helps to ensure these children do not enter the Division's custody.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: IV-E Authority--Juvenile Courts

Program is found in the following core budget(s): IV-E Authority--Juvenile Courts

1. What does this program do?

The Children's Division (CD) has Title IV-E contracts with certain juvenile courts or family courts. The purpose of the contracts is to reimburse the court the federal match for children who are placed in the court's custody and in an out-of-home placement. In order to qualify, CD staff must determine the child to be Title IV-E eligible and reimbursable. This program brings federal dollars to the courts so that they can plan for the child and maintain their placement without placing the child in the custody of the Children's Division.

There are three contracts with juvenile or family courts throughout the state. CD has contracts with Boone County Juvenile Court (13th Judicial Circuit), Jackson County Family Court (16th Judicial Circuit), and the Normile Bruce Juvenile Justice Center (2nd Judicial Circuit--Adair, Knox and Lewis Counties). Boone County Juvenile Court (13th Judicial Circuit) is the only court that billed for FY2010.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Federal laws: P.L. 96-272, Title IV-E of the Social Security Act

3. Are there federal matching requirements? If yes, please explain.

Yes, this federal funding comes from Title IV-E, which requires a state match. The juvenile and family courts entering into contracts with the Children's Division are responsible for the state match.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves
Reserves \$250,000

Program is found in the following core budget(s): Child Abuse/Neglect Grant

1. What does this program do?

PROGRAM SYNOPSIS: The Children's Division (CD) receives the Child Abuse and Neglect (CA/N) Basic Grant, and the Children's Justice Act (CJA) Grant. The guidelines for the grants specify criteria that must be met, as well as limitations on how the funds can be expended.

- The CJA Grant is to be used for the purpose of assisting Missouri in developing, establishing, and operating programs designed to improve the following:
- The handling of child abuse and neglect cases, particularly cases of child sexual abuse and exploitation, in a manner which limits additional trauma to the child victim;
 - The handling of cases of suspected child abuse or neglect related fatalities; and
 - The investigation and prosecution of cases of child abuse and neglect, particularly child sexual abuse and exploitation.

The CA/N Basic Grant is used to fund initiatives for the investigation and prosecution of child abuse.

- Funding of attendance at various training/conferences revolving around child welfare (including multidisciplinary training).

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Foster Care Children's Accounts

Program is found in the following core budget(s): Foster Care Children's Accounts

1. What does this program do?

PROGRAM SYNOPSIS: When children are placed in the Divisions' custody, outside income on behalf of the children such as Social Security, SSI and Child Support are pursued. The Foster Care Children's Account provides a central account for the distribution of outside income for children in the Children's Division's (CD) care and custody, offsetting state expenses and providing support for the child if they can safely return home.

The division manages any outside income received by children in its care and custody. It is necessary for the Children's Division to provide a central account for the distribution of funds received for children in its care and custody, thus offsetting state expenses. Children receive outside income from a variety of sources including Social Security (SSI and OASDI), Veterans Benefits, Railroad Retirement benefits, Child Support which includes federal and state income tax intercepts, lump sum payments, inheritance, etc. (excludes the child's wages, if any). This income is used to offset the cost of maintaining the child in alternative care and to pay any special expenses of the child. The use of these funds diverts payment for children from state funding sources. The amount of children's accounts funds utilized to offset state expenditures has increased from \$2.5 million in FY90 to \$11.7 million in FY09. The appropriation in FY10 was \$12 million.

The single most significant factor contributing to the increase in funds utilized has been the number of children in CD custody who are eligible for and receiving SSI payments.

If a child is due past SSI payments that exceed six times the federal monthly benefit rate, a separate special account referred to as a "dedicated account" must be established for the child. The past due benefits must be deposited into the dedicated account and may not be combined with the child's SSI benefits or any other funds. CD may expend funds for medical treatment, education, job skills training and other specific expenses related to the child's impairment from this dedicated account. Expenditures from this fund must be approved by the Social Security Administration.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 210.560

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

States do not have to serve as a Representative Payee for kids in Foster Care. Missouri has opted for the opportunity based on the information below.

Section 205(j)(1) and section 163 l(a)(2)(A) of the Social Security Act provides broad authority for the Social Security Administration (SSA) to determine whether an individual beneficiary should have a representative payee. Section 205(j)(1) of the Act provides for the appointment of a representative payee if it is determined "that the interest of the individual under this title would be served thereby... regardless of the legal competency or incompetency of the individual". Missouri has opted to served as this representative.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Social Security, SSI, Child Support, Veteran's Benefits, Railroad Retirement Benefits, Lump Sum Payments and Inheritance.

7a. Provide an effectiveness measure.

The Foster Care Children's Account supports child welfare programs such as Foster Care and Residential Treatment. Applicable measures can be found in these program descriptions.

7b. Provide an efficiency measure.

The Foster Care Children's Account supports child welfare programs such as Foster Care and Residential Treatment. Applicable measures can be found in these program descriptions.

7c. Provide the number of clients/individuals served, if applicable.

2. CORE DESCRIPTION

This appropriation funds a subsidy for low-income families and children receiving protective services child care to assist with the purchase of child care and programs to improve the quality and availability of DSS subsidized child care in Missouri. This appropriation also funds early childhood development programs targeting primarily low income families and families with children under age three to ensure that these children have positive early child experiences both in and out of the home. These programs help prepare children to enter school ready to succeed and to reduce the potential for child abuse and neglect.

PROGRAM DESCRIPTION

Department: Social Services

Program Name: Purchase of Child Care

Program is found in the following core budget(s): Purchase of Child Care

1. What does this program do?

PROGRAM SYNOPSIS: The Purchase of Child Care program supports low income working families through the Family Support Division and children receiving protective services child care through the Children's Division. This program supports quality improvement activities.

Child care is essential in assisting families in achieving self-sufficiency and breaking the cycle of poverty. Research has proven that quality early childhood care and education experiences are critical for children to enter kindergarten prepared to succeed. Child care also prevents children from being left in inappropriate, unsafe or unsupervised environments.

The Purchase of Child Care program includes three components to help families achieve and maintain self-sufficiency and increases children's chances to succeed in school. The three components include subsidy and subsidy quality supports partially funded with federal Child Care Development Fund (CCDF) block grant and early childhood education grants funded with gaming revenues. Each component is discussed below:

Child Care Subsidy

Traditional Child Care Subsidy

Parents and other caretakers participating in job training, educational activities or employment depend on available, affordable and accessible child care. DSS child care subsidies support parents receiving Temporary Assistance benefits, those with low income or families receiving child welfare services. Parents are required to share in the cost through a sliding fee scale based on household income. In addition, parents are responsible for paying the difference between the provider's actual charge and the state maximum payment rate. Parents receiving child care through the Children's Division are exempt from paying a sliding fee or co-payment.

Transitional Child Care

In fiscal year 2009, an expanded child care subsidy program was established allowing family eligibility to continue beyond the traditional income eligibility limits (currently set at 127% of the Federal Poverty Level). This expanded eligibility is called Transitional Child Care (TCC) and is only available to families who are already receiving traditional child care subsidy. TCC households have an increased share in the cost of care due to their increased income and continued eligibility. Their share is the cost of care above the 75% benefit amount paid to their provider, which includes the mandatory sliding fee.

A three (3) person household with income up to \$1,960 per month (\$23,520 per year) receives full child care benefits. If this three (3) person household receives an increase in income, they may continue to receive 75% of the maximum child care benefit until their household income reaches \$2,145 per month (\$25,740 per year).

A four (4) person household with income up to \$2,333 per month (\$27,996 per year) receives full child care benefits. If this four (4) person household receives an increase in income, they may continue to receive 75% of the maximum childcare benefit until their household income reaches \$2,553 per month (\$30,636 per year).

Child Care Provider Payment

Payment for child care may be paid to a legal provider as defined in 210.211 RSMo. Child care providers who are licensed may contract with DSS and receive reimbursement. Other legally operating providers, who register with DSS, may also receive reimbursement under certain conditions. Providers who are license exempt must have an exemption established by the Department of Health and Senior Services, Section for Child Care Regulation (SCCR). Providers who care for four or fewer unrelated children, must meet specific requirements including, but not limited to, the following:

- *Be at least eighteen years old;
- *Complete state and federal background screenings on themselves through fingerprints;
- *Complete background screenings on household members age seventeen years and older; and
- *Test negative for Tuberculosis.

The Division pays a maximum base rate determined by geographic area, type of facility (center, group or family home), duration of care (full, half or part day) and the age of the child (infant/toddler, preschool or school age). When providers meet the following qualifications, their base rate may be enhanced:

- *Providers who offer care after 7 p.m. and before 6 a.m., and/or on Saturday/Sunday, may receive a 15% enhancement to their base rate.
- *Programs who are accredited by an accrediting organization recognized by the Department of Social Services may receive a 20% enhancement to their base rate.
- *Providers who care for children with special needs may receive a 25% enhancement to their base rate for that child. Special consideration is given to children with special needs. If a medical professional certifies that a child is functioning at a developmental age level lower than their chronological age, child care services for the child may be paid at the rate certified as the functional age.
- *Licensed providers, who are contracted with DSS and whose enrollment consists of 50% or more DSS subsidized children, may receive a 30% enhancement to their base rate.

CHILD CARE SUBSIDY QUALITY SUPPORTS

CCDF quality funds support the following initiatives:

Resource & Referral

The Missouri Child Care Aware (Formerly Missouri Child Care Resource and Referral Network (MOCCRRN)), composed of seven not-for-profit agencies, provides statewide resource and referral services to families seeking child care and consumer education. Among the services provided, the following are those specifically supported by this appropriation:

- MOCCRRN maintains a child care referral computer database that uses nationally recognized resource and referral software programs for families seeking child care.
- MOCCRRN operates a statewide toll-free telephone system that links families to their appropriate local resource and referral agency.
- MOCCRRN provides statewide training coordination for the DHSS/DSS approved child care provider trainings which include Child Care Orientation Training (CCOT) and Providers Advancing Through Continuing Education (PACE).
- MOCCRRN provides on-site technical assistance to child care providers to improve parental involvement in the care and education of their children based on the national Strengthening Families Protective Factors model.

Before & After School Care

The Department of Social Services funds Before- and After School programs for children in high poverty urban areas to support working parents and to provide safe, constructive, extended day services for children. These services are provided free or at a minimal charge to the parent. Services are provided at 29 sites in the Kansas City Area through the Greater Kansas City Local Investment Commission (LINC) and at 13 sites in the St. Louis Area through Area Resources for Community and Human Services (ARCHS).

Opportunities in a Professional Education Network (OPEN)

The OPEN initiative is an "umbrella" under which many career development efforts occur. OPEN's primary focus is the development and implementation of a career development system for staff in early childhood and school-age/after-school and youth development programs.

- OPEN maintains a Trainer Registry, a database for trainers in the field of early childhood and school-age/after school or youth development education in Missouri. It collects and verifies trainers' education and experience and assists in the development of trainer criteria for a trainer approval system through the Missouri Department of Health and Senior Services.
- OPEN maintains a Professional Achievement & Recognition System (PARS), a database that tracks child care practitioners' career development and recognizes educational attainment. PARS allows teachers to participate in Missouri's career development system and provides a source of valuable data for the field.
- OPEN provides the administrative infrastructure for programs to evaluate their level of performance.

Educare

Educare is a state funded initiative providing resources, technical assistance, and training opportunities targeting family home providers. Services are free or at reduced costs to state-subsidized child care and early learning programs. The guiding principles of Educare are:

- Strengthen the ability of child care programs to offer developmentally appropriate early care and education activities and programs;
- Develop and expand school-linked, integrated services to serve young children, focusing on the special needs of children from low-income families;
- Encourage parental involvement and participation with their child's developmental process;
- Draw on community leadership for design, implementation and continued involvement to improve early child care and education systems; and
- Create programs that are designed to meet the unique needs of communities.

Educare services include:

- Professional development opportunities for child care and early learning programs;
- Individualized home visits for family child care programs;
- Customized center-based training;
- Supporting coordination of existing community resources to optimize funding;
- Linking child care and early learning programs and families to schools and community resources.

There are currently nine Educare sites in Missouri serving eighty-two counties.

EARLY CHILDHOOD EDUCATION:

The Early Childhood Development Education and Care Fund (ECDECF), established in RSMo. 313.835, sets aside a portion of Missouri gaming funds to be jointly administered by the Departments of Social Services (DSS) and Elementary and Secondary Education (DESE). Overwhelming evidence of research indicates early childhood experiences directly impact a child's potential for future learning. Children begin learning at birth, and experiences during the critical early years have an effect, either positive or negative, on long-term development. Providing parents with support systems and education on child development and age appropriate behavior in the early years are proven factors in reducing the potential for child abuse and neglect.

Using this funding, DSS targets services to children birth to age three in low income and at risk families. A brief description of each program is outlined below.

Accreditation:

Accreditation is a nationally recognized indicator of quality in an early childhood program. Accreditation activities supported by this funding include an increase in subsidy rates for low income children paid to child care and early learning programs that are accredited by a recognized early childhood accrediting organization. Accreditation facilitation services are available to help programs attain accreditation.

Stay at Home Parent:

The Stay at Home Parent program provides assistance to eligible parents whose family income does not exceed 185% of the federal poverty level and who wish to care for their children under 3 years of age in the home. The program allows parents opportunities in early childhood development and education improving parenting skills and often decreasing the potential for child abuse and neglect. Services are provided through home visitation, social opportunities, and educational opportunities for families. Funding is provided through grants to local community organizations. Families are referred to Parents As Teachers for parenting and early childhood development education.

Start-Up/Expansion:

To increase the capacity of infant and toddler child care in the state, grants are provided to community based agencies, organizations, or individuals wishing to start up quality child care and early learning programs or expand existing programs. Funding is provided for equipment, supplies, initial staff salaries, minor remodeling to meet licensing guidelines, and education and training of staff. Funding is not available for new construction. Programs must serve state-subsidized children.

Missouri Early Head Start/Child Care Partnership Project:

The goal of the Missouri Early Head Start (EHS) Child Care Partnership Project is to promote quality early childhood services for Missouri's birth to age three population, including prenatal care. Using the national Early Head Start model this program partners with a wide range of child care and early learning programs in communities. Partnerships may include public and private programs, religious based programs, family child care programs, group homes and centers-based programs.

The EHS model directly serves families under 135% of the FPL. The Missouri Early Head Start Child Care Partnership also offers parents a wide range of child care arrangements which meet federal Early Head Start performance standards. EHS services include child care, parent education and support, age appropriate developmental screenings, access to a medical home, support toward attaining family self-sufficiency, and mental health services including substance abuse counseling. Because of the partnerships with community child care and early learning programs, the Missouri Early Head Start/Child Care Partnership program is able to provide quality early childhood experiences to substantially more children than those directly funded through this appropriation. This funding currently supports 27% of the total available EHS slots in Missouri. Due to the American Recovery and Reinvestment Act there has been an expansion of federal EHS slots in Missouri.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: RSMo. 313.835; RSMo. 208.044; RSMo 208.046 (Effective 8/28/2010); Federal Regulation: 45 CFR 98.10.

3. Are there federal matching requirements? If yes, please explain.

Yes. The federal CCDF block grant funds subsidy and quality subsidy supports. This block grant is broken down into three types of funding: mandatory, discretionary and matching. To receive mandatory funding, a state must maintain a certain level of state funding commitment - a Maintenance of Effort (MOE). Expenditures in the Purchase of Child Care program help to meet this MOE requirement. There is a state match requirement to receive the matching components of the CCDF funds.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Planned FY 2011 expenditures are net of reserves
Reverted: \$2,326,434
In FY2010, Actual Purchase of Child Care Expenditures were \$186,850,206 funded partially with ARRA funding.

6. What are the sources of the "Other " funds?

Early Childhood Development Education and Care Fund (0859).

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This request continues funding Purchase of Child Care costs with additional Early Childhood Development Education and Care funds rather than GR. There is a FY2011 supplemental request. There is a corresponding FY2011 reserve and FY2012 core cut from GR.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The amount of \$728,740 is available and authorization of this amount is needed. The Early Childhood Development Education and Care fund will support additional expenditures of \$728,740. There is a FY2011 reserve and FY2012 core reduction for GR from the Purchase of Child Care. These funds are needed to continue core program.
